Kingdom Ministries Mental Health & Psychiatry (KMMH) in association with Community Mental Health & Psychiatry (CMHP) offers a wide variety of accommodation & services to mental health service users.

Where adults and older people need help because they have a mental health problem, we can provide a range accommodation and services varying from independent residential living in group homes to larger care centres. We also manage a home for children with severe and profound intellectual disabilities. Who can have this service? o Any South African citizen may apply. Some of our larger care centres and group homes are partially subsidized by the Western Cape Department of Health. To qualify for these centres you should normally live in the Western Cape Province. o You must have a psychiatric diagnosis. o You must have a serious mental health need and unable to reside within your current environment. o You must be assessed by us to determine whether you are a suitable candidate for either a residential home or one of our larger care centres. o This assessment can only take place once we have received your completed application. Will I have to pay towards this service?

Yes. We will tell you how much you are likely to pay after receipt of your application. Your final monthly fee will be determined and confirmed within 7 days of your assessment which includes an interview with the applicant and his/her nearest relatives at our premises. How do I get started? You can email anel@mentalhealth.org.za requesting an Application Form, or contact Anel Pienaar, Director: Social Work KMMH at 021 981 9850. Nota: Afrikaans as korrespondensie taal word verwelkom.
